If the time of validity of the order is not specified, it shall be valid for an indefinite period. However, the Company may cancel one or all pending orders at Stop Out level (margin level drops below 50%).

3.4. Orders cannot be changed or cancelled after having been sent to execution to the market.

A list of these institutions appears on our Website and/or our "Best Interest and Order Execution Policy".

3.9. The Company is under no obligation, unless otherwise agreed in the Agreement, to monitor or advise the Client on the status of any Transaction or to close out any Client's Open Positions when Margin Level drops below 50%. When the Company decides to do so, this will be done on a discretionary basis and will not be considered an undertaking of an obligation to continue. At the moment of its decrease to this level or below, the most lossy position is closed on the account.

3.10. It is the Client's responsibility to be aware of his positions at all times.

3.11. The Quotes appearing on the Client's terminal are based on the quotes from the Execution Venue and are indicative quotes and hence the actual execution price may vary depending on the

market conditions. For example, in case of high volatility market, execution price might vary from the bid/ ask price which Client was intended to obtain. This may result in positive or negative Slippage for the Client.

For opening a position in some types of CFDs the Client may be required to pay financing fees, the amount of which shall be disclosed on the Company’s Website as specification to each instrument. In the case of financing fees, the floating P&L is increased or reduced by a daily financing fee “swap rate” throughout the life of the contract.

4.3. Swaps are calculated when the position is kept open overnight at midnight (00:00 CET).

5. LOTS

- (c) The Execution Venue cannot execute the Order; for example, because it is unable to determine the market price of the Underlying Asset.
- (d) The system of the Company rejects the Order due to trading limits imposed based on Contract Specification for each instrument.

7.5. The Company does not have an obligation to make Margin Calls to the Client (indulging the situation when the Platform automatically warns the Client that it reached a specific percentage of the Margin in the Client Account).

7.6. It is understood that once an Order is placed, until such Order is executed and the Transaction is closed, the Maintenance Margin shall distinctly appear in the Balance, but because it is used as collateral for keeping the position open it shall be unavailable for withdrawal. It is understood that Necessary Margin shall be blocked and unavailable for withdrawal from the moment when Order was placed, through opening a position until the position is closed.

8. SETTLEMENT OF TRANSACTIONS

8.1. Upon closing of position financial settlement takes place.
