A set commission fee is charged on trading Forex, Metals, Indices and Commodities on two (2) different account types. Below is a detailed explanation of the fees applicable:

• Pro Account

For this account type commissions of 4 USD per 100,000 USD traded.

To open position of 3 lots USD/JPY, the transaction volume is 300,000 USD.

Considering that for a USD 100,000 transaction size commission is charged for both opening and closing the position at USD 4 each, for this transaction it will be: $2 * (300,000 / 100,000 * 4) = 24$ USD. The commission fee is deducted from the account during the opening of the transaction for both the operations at once.

• ECN Account

For this account type commissions of 3.5 USD per 100,000 USD traded.

To open position of 3 lots USD/JPY, the transaction volume is 300,000 USD.

Considering that for a USD 100,000 transaction size commission is charged for both opening and closing the position at USD 3.5 each, for this transaction it will be: $2 * (300,000 / 100,000 * 3.5) = 21$ USD. The commission fee is deducted from the account during the opening of the transaction for both the operations at once.

5. SWAPS

It is the fee for keeping positions opened over the night. The swap can be positive or negative depending on the instrument. Swap for the opened positions is calculated at 23:59:59 – 00:00:00 (EET), Monday to Friday.

Example: Swap value = Number of lots x contact size x Swap rate (available on the Company's website) x Number of nights Example: 4 (number of lots) x 100000 x -0.00009861 (long EUR/USD) x 4 (number of nights*) = -\$157.77 *CFD on Forex position opened on Tuesday and closed on Thursday (triple swap is charged from Wednesday to Thursday night as it includes the charge for the weekend).
